

friends of WARTON CRAG LOCAL NATURE RESERVE

16th July 2022

Visitor Access

At this time of the year plant life is thriving which can cause pathways to become overgrown. We spent the morning checking and clearing the waymarked route around the Crag so that our visitors could enjoy a pleasant walk. It was a lovely sunny day, if not a little too warm, but it didn't stop everyone from getting stuck in.

The volunteers are a lovely sociable group of people, and we all enjoy getting outdoors doing something that is beneficial for people and nature. Get in touch with Belinda the Local Nature Reserve Warden if you would like to join us.
